🎯 Personal Statement

- Full-stack research engineer.
- Specialized in software engineering, with 5+ years of experience in successfully collaborating with ML researchers to turn research into products.
- At Microsoft Research, I prototyped the new Office AI for Excel.

🎓 Education

University of California, Berkeley — Berkeley, CA
B.A. Honors Computer Science & Mathematics — May 2024
- Tech GPA: 4.0 | GPA: 3.92
- **Coursework**: AI, ML, Probability, LinAlg, Algorithms, Optimization, Compilers, Computer Security

🔭 Experience

UC Berkeley Electrical Engineering & Computer Sciences — Jan 2023 - Dec 2023
Researcher
- Led a team of 5 researchers to develop an ML service for circuit design on GCP and a reinforcement-learning library for circuit optimization using OpenAI Gym and Ray.
- Enabled ML researchers to design optimal circuits without any prior knowledge of circuit design, reducing the design time from 1 week to 1 day.

Huawei — Sep 2022 - Dec 2022
Software Engineer Intern
- Designed, implemented, and validated a new service for frequency management using C/C++, enabling cellular networks to support the new 5G standard.
- Optimized a deployed service using C/C++, reducing its runtime complexity from exponential to polynomial.

Tsinghua University — May 2022 - Aug 2022
Research Engineer
- Built a service for data processing and analysis using Django, enabling data scientists on the team to perform 10+ data pipelines, including association rule learning, dynamic time warping, etc.
- Trained, validated, and tested an object detection model for NASA satellite images using PyTorch CNNs, validating the feasibility of a new product.

Microsoft Research — Sep 2021 — May 2022
Research Fellow
- Prototyped the new Office AI for Excel using TypeScript, C#, and TensorFlow, enabling users to perform 10+ AI tasks. Shipped to the Excel product team.
- Improved a deployed ML classification model (LSTM + CRF) using TensorFlow, increasing its F1 score from 72 to 77.

🌱 Skills

- **Advanced**: Python, PyTorch, JS/TS, Rect/Next.js, Rust, C/C++, Java/C#, CUDA, GCP,
